2. Use power on and power off operations of Qobo

Process and methods

1. Through Qobo, let children connect with new things and enhance curiosity.

Emotional attitude and values

1. Cultivate children's optimistic spirit and friendly emotions.

Curriculum introduction

Qobo is a robot that, like a snail, is also our new friend. Qobo has cute big eyes and big snail shell. However, Qobo moves more rapidly than a snail.

Curriculum introduction

Although Qobo has a cute appearance, it cannot conceal any of its merits. It is not only smart but also well-behaved. Qobo dreams to travel around the world.

Know Qobo

To achieve its dream, brave Qobo needs to collect a map and a lot of cards.

Know Qobo

Qobo report arrival !

Qobo can use a lot of skills, such as snoring when it sleeps. It can react when you rock it. You can execute actions using card guidance. The big snail shell also can light different color lights.

Roboblog

Know Qobo

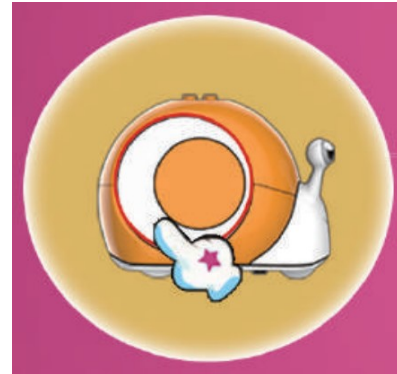

The reason why Qobo has many skills is that there are many secrets hidden in it.

Roboblog 

Know Qobo

Qobo starts laughing when you touch its mouth.

Lights of different color can be lighted in here.

The hidden eyes of Qobo are here. They can read the information on card.

Loudspeaker sends the sound when Qobo speaks.

Know Qobo

In order to realize his dream of traveling around the world, Qobo must turn on the power switch, set the route with cards, and press the start button. The card is the necessary partner for Qobo to move! So remember to protect the card.

Press the switch button on Qobo's bottom for a long time

Put the start card

Press start button

Know Qobo

Qobo's actions are supported by electricity. If the Qobo's battery is low, we will be prompted to charge it in time.

Know Qobo

Look carefully at our Qobo.
